

12 August 2014

Dear Partner Institution in ICT in Education:

The 2014 UNESCO ICT Conference on Creativity and Innovation in Philippine Education aims to sustain the initiatives advanced in previous conferences on the following areas: peer coaching, project-based approaches, curriculum development, and integration of ICT in education. More importantly, we now aim to prepare education stakeholders for the 2015 ASEAN integration.

The conference will feature plenary sessions by experts from the academe and industry, ICT-oriented competency-based workshops, group sessions with UNESCO-trained practitioners to exchange best practices in integration, and opportunities for a dialogue between the Philippine education sector and its industry partners.

Workshops on fostering creativity and innovation through ICT complete the conference. Topics of interest are: how technology can address large-scale educational reforms such as the K to 12 program and outcome-based education; project- and problem-based learning; media and information literacy; learner-centered instruction; and various instructional delivery modes and systems.

Teacher educators, school administrators, teachers in pre- and in-service training, learning technologists, industry experts, curriculum development specialists, instructional designers, and training specialists are welcome to attend.

Cooperatively organized by the six (6) Philippine Teacher Education Institution-members of the UNESCO Resource Distribution and Training Centres (RTDC) Network (i.e. DLSU, UP-DILIMAN, UST, UE, MMSU-Laoag City, MSU-IIT) the conference will be held at the **Fajardo-Gonzalez Auditorium** at the **Andrew Hall, De La Salle University-Manila** on **November 21 and 22, 2014**.

In this regard, we are inviting you and your ICT teachers to join us in this interesting engagement. We look forward to seeing you in November.

Thank you very much.

Sincerely,

**Dr. Rochelle Irene G. Lucas**  
Conference Director  
2014 UNESCO ICT Conference
